Instructor: Nathan Grigg, Art 336, grigg@uw.edu
TA: Yang Yang, PDL C-111, yangy5@math.washington.edu
Mon/Fri: MOR 225 **Wed:** MEB 246 **Tue/Thurs:** MUE 155
Class web page: <http://math.washington.edu/~grigg/math126>

Mondays, Wednesdays, and Fridays

You will get most out of class if you come prepared. You can prepare by working the homework from the last section, reading the next section before class, and thinking of questions that you could ask.

Tuesdays (worksheets)

Sometimes you will work in groups on worksheets, sometimes you will go over homework, and sometimes the TA will teach you new material. You must attend class and participate to receive credit for the worksheets. Each day that there is a worksheet, you should print out a copy from my website and bring it to class.

Thursdays (quizzes; homework due)

Usually there will be a quiz, designed to test your understanding of the concepts and techniques. You may use a scientific calculator, but no notes. You will also turn in your homework at the beginning of class.

Exams

There will be one midterm exam and a final. The exams are designed to test your broader understanding of the material. Midterm: July 22. Final: August 20.

Grading

Exams	50%
Quizzes	35% (drop lowest)
Worksheets	3%
Homework	12% (drop lowest)

Office Hours

I will be available to meet with students by appointment; just send me an email with three or four times that you are available to meet and we will set something up. I encourage you to form study groups and spend time at the Math Study Center.
