Reading Quizzes

You are expected to read the textbook before coming to class each day. On Mondays and Wednesdays, there will be a short online quiz posted on my website. You will have about 10 minutes to complete each quiz, and it must be completed before class begins. You may use your book, but no other resources.

Exams

There will be midterm exams on **Monday, October 26** and **Monday, November 30** in class. The final exam will be **Wednesday, December 16** from 8:30 to 10:20am. You may bring one letter-size

handwritten sheet of notes (writing allowed on both sides). You may use a scientific calculator, but graphing calculators are not allowed. **Bring your Student ID to all exams.**

Homework

Homework will be assigned in class each day and will be collected once a week, usually on Wednesdays. Homework assignments and due dates will be posted on my website.

Sometimes I will designate a homework exercise as an essay problem. Essay problems will be turned in separately from the rest of your homework, and will be graded for clarity as well as correctness.

Grading

I will be grading on a fixed scale. A 90% will typically give you a 3.5, an 80% gives you a 2.5, etc.

Grading Breakdown		
Homework	11%	(drop lowest)
Reading Quizzes	3%	(drop 2 lowest)
Exam 1	23%	
Exam 2	23%	
Final Exam	40%
